

Skyline Apartment REIT

CLASS F FUND FACT SHEET | Q1 2026

Skyline's first REIT, Skyline Apartment REIT, was established in 2006 and maintains a portfolio of multi-residential, institutional-quality real estate assets in secondary communities across Canada. The REIT's objectives are to provide investors with monthly cash distributions and increase unit value by managing the current assets and acquiring and developing new assets. The portfolio is supported by an award-winning management team with a history of consistently delivering stable monthly distributions to investors.

RECENT ACQUISITIONS

DISCLAIMER

This document is only a summary. Figures shown are past results and are not indicative of future results; Current and future results may be lower or higher than those shown, figures presented as at March 31, 2026.

¹ Current Annual Distribution Yield is equal to the annual distribution per unit divided by the current unit value. Unit value is determined by a Net Asset Value (NAV) model based on evaluations by Senior Management and the Skyline Apartment REIT Board of Trustees.

² A transaction fee may apply if your account is held by a third-party registered plan trustee, or dealer. A 30-day redemption notice is required.

³ The Fund Loan to Value is the ratio between the total debt outstanding in the portfolio and the enterprise value of the Fund calculated as the market value of equity plus the total debt outstanding.

⁴ The Management Expense Ratio (MER) is the total annual fund-level expenses incurred to manage the REIT as an investment vehicle, expressed as a percentage of total asset value.

⁵ The annualized return is based on a single unit initial investment in the Skyline Apartment REIT inclusive of unit price changes and reinvested distributions.

⁶ The figure presented in the table represents Class A unit performance and includes changes in unit value. Yearly returns in this chart reflect performance from January 1 of the given year to January 1 of the next year. Monthly returns are based on the unit value change from the first day of the previous month to the first day of the month shown.

⁷ For illustration purposes only. For full performance, contact a Skyline representative.

Commissions, trailing commissions, management fees and expenses all may be associated with investments in exempt market products. Please read the confidential offering documents before investing. The indicated rate of return is the annualized return including changes in unit value and reinvestment of all distributions and does not consider sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. There is no active market through which the securities may be sold, and redemption requests may be subject to monthly redemption limits. The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with an exempt market product's performance. Distributions paid as a result of capital gains realized by an exempt market product, and income and dividends earned are taxable in your hands in the year they are paid.

Exempt market products are not guaranteed, their values change frequently, and past performance may not be repeated. Nothing in this email should be construed as investment, legal, tax, regulatory or accounting advice. Prospective investors must make an independent assessment of such matters in consultation with their own professional advisors.
